Sage

High-security MaxProtect™ checks by Sage provide 30 security features

1 **Foil hologram:** additional protection against duplication of the document.

2 **Thermochromic heat-sensitive icon:** ink disappears when warmed by touch or breath and reappears upon cooling, immediately providing authentication.

3 **Toner adhesion:** toner is nearly impossible to remove without visible damage to the paper.

4 **Prismatic multicolored background:** subtle gradations of color make it difficult to copy or reproduce.

5 **Chemically reactive paper:** uniquely treated paper creates stains, spots, or discoloration if chemicals are used to alter or wash checks.

6 **Invisible fluorescent fibers:** embedded within the paper and visible only under ultraviolet light make reproduction nearly impossible.

7 **Anti-counterfeiting dot pattern:** a pattern of dots helps prevent copiers from reproducing the check face image.

Get 50 free* MaxProtect™ checks

It's the fastest way to quickly and easily get started with printing compatible high-security checks using your Sage product.

Deposit solutions

Direct deposit advice forms

Shown: LCP97 – One Part

Works with the Sage 50 Direct Deposit service* to offer your employees printed details of the deposited payroll transaction.

Printable deposit tickets

Shown: LDTP – One Part

Don't waste time manually entering your deposits on conventional deposit tickets. Enter deposits into your software as usual and automatically print the information on these deposit tickets, complete with a deposit summary stub. Available for laser and inkjet printers. Size: 8 1/2" x 11"

Manual deposit tickets

Shown: DTA – Available in 1, 2 and 3 Part

Your company name, financial institution, and MICR encoding imprinted at no extra charge. Carbonless copies, book format. Size: 7 7/8" x 3 3/8"

Other products available

- Manual 3-on-a-page checks
- Deposit bags
- Check binders
- Portable business checks
